Mission Statement

Provide reliable 'one stop' Supply Chain Services to a Corporate target market by utilizing superior planning, well trained manpower, and optimal mix of physical, mechanical and electronic measures while strictly complying with governing laws and regulations of the country .

SUPERIOR INNOVATIVE PROFESSIONALS SERVICES

Introduction

SIP Services is one of Pakistan's new and innovative providers of integrated and safe Supply Chain solutions bringing a new dimension to Industry in some of Pakistan's most challenging environments, offering unmatched personal service and customized capabilities.

We believe in providing excellent services to local customers and facilitate our foreign Principals and suppliers to sell and market their products worldwide as they sell in their own country. We protect interests of both partners equally and mutually without any discrimination. Also our approach towards indenting is not just for one time transaction, instead we believe into building long term relationship with local customers and International suppliers on the basis of trust, loyalty and mutual interest.
